To Whom It May Concern,

I am writing to commend the exceptional support provided by Doru Angelo and the OnyxElite Consulting team during the development of The Grocery on Broad, a social enterprise by Forge City Works in Hartford, Connecticut.

Over a two-year period, OnyxElite Consulting played a pivotal role in the project's success. Their expertise in project management was instrumental in navigating complex municipal and state agency requirements.

They coordinated the environmental review process, solidified our business plan, and facilitated community outreach through focus groups. Their guidance ensured the project remained on schedule and within budget.

OnyxElite's team demonstrated a deep understanding of the unique challenges faced by non-profits operating in the social enterprise sector. They consistently delivered professional, timely, and effective solutions, helping us overcome regulatory hurdles and achieve our objectives.

Their contributions were invaluable in bringing The Grocery on Broad to fruition, and I wholeheartedly recommend OnyxElite Consulting for any organization seeking expert guidance in project management and strategic development.

Sincerely,

Ben Dubow
Executive Director
Forge City Works
